

POSTDOCTORAL NEUROPSYCHOLOGY FELLOWSHIP

Specialization in the Neuropsychology of Epilepsy

The Columbia Epilepsy Division in the Department of Neurology offers a 2-year postdoctoral neuropsychology fellowship. The population includes primarily patients with epilepsy, but also those with movement disorders, brain tumors, vascular anomalies, dementia, and other neurological disorders. Activities include neuropsychological evaluations, Wada testing, intraoperative and extraoperative cortical mapping and fMRI. Fellow will have opportunity to attend epilepsy case conferences, neurology and neuropsychology lectures, and neurology, neuroradiology, and neurosurgery rounds. Fellow will also participate in NIH funded research in language and epilepsy. There as an academic requirement of at least one abstract submitted to national professional conference; topic to be decided by fellow and supervisors. Stipend is competitive and includes full benefits. Successful applicant will have had both coursework and clinical training in neuropsychology. Preference is given to applicants who have completed internship with extensive neuropsychology experience. Interviews will be mandatory. Application includes cover letter, CV, 3 letters of recommendation (emailed directly from reference), and 2 sample neuropsychological reports to:

Marla Hamberger, Ph.D., Jeffrey Cole, Ph.D., ABPP-CN
Email: mh61@columbia.edu

EXTERNSHIP IN CLINICAL NEUROPSYCHOLOGY; Epilepsy Division

The Epilepsy Division offers a 1-year externship in clinical neuropsychology, with an emphasis in epilepsy. Externs will learn to administer, score, and interpret neuropsychological test batteries in adults undergoing evaluation for intractable seizures and other neurological conditions. Externs will have the opportunity to attend surgical case conferences, teaching rounds, and lectures in the Department of Neurology at Columbia University Medical Center. Externs will also have the opportunity to observe Wada Procedures and intracranial electro-cortical language mapping. Supervision is conducted by Dr. Marla Hamberger and Dr. Jeffrey Cole. Current enrollment as a doctoral student in Psychology is required. Graduate coursework in neuropsychology and prior testing experience is strongly preferred.

Interested applicants should send a cover letter, curriculum vita, and two recommendation letters to:
