

Lenox Hill Hospital is a 652-bed, tertiary-care hospital located in Manhattan's Upper East Side in New York City. It is a member of Northwell Health and a teaching hospital of Hofstra Northwell School of Medicine. The department of neurology at Lenox Hill Hospital includes an epilepsy center (Epilepsy Monitoring Unit), Autoimmune Brain Disorder and Encephalitis Center, Stroke Center, Movement Disorders Specialists, and other general neurology practices.

We are recruiting 4-6 clinical externs with an interest in neuropsychology for the 2022-2023 training year. Our two training programs include the Adult Program and the Lifespan Program. Externs will rotate between these programs throughout the year and will have opportunities to work with pediatric patients in the Lifespan Program.
