

Externship in Neuropsychological Assessment

The Department of Psychiatry at NYU Winthrop Hospital is pleased to announce an externship in a lifespan outpatient neuropsychological evaluation practice. Externs will have the opportunity to evaluate patients ages 5-90+ referred by pediatricians, psychiatrists, and neurologists. Externs will be trained to conduct neurobehavioral status exams, administer a wide range of neuropsychological tests, and offer feedback.

NYU Winthrop Hospital is a community hospital located in Mineola, NY. The department of Psychiatry is a consult-liaison service, offering inpatient mental health assessment and treatment along with substance abuse counseling and referrals to inpatient and outpatient treatment. We are a collaborative department as well as part of the NYU Long Island School of Medicine. Externs will have the opportunity to participate in morning report, department didactics, and may shadow attending psychiatrists, psychiatric nurse practitioners, and social workers. Interested externs are also encouraged to participate in ongoing departmental research activities.

Patients are referred to the neuropsychology testing service for a wide range of conditions, including:

- ASD
- ADHD
- Learning disorders
- Intellectual disabilities
- Cognitive decline in the elderly
- Traumatic brain injury and concussion
- Alzheimer's disease and other neurocognitive disorders
- Conditions requiring neurosurgical intervention
- Stroke, epilepsy, multiple sclerosis, brain tumors.
- Medical conditions, including metabolic disorders, HIV infection, cardiovascular disorders, liver disease, and autoimmune disorders.
- Psychiatric disorders

Director of the Program: Carole Filangieri, PhD

Training Director: Carole Filangieri, PhD

Length of externship: 12 months (flexible)

Start Date: 9/1/2021

End Date: 8/31/2022

Hours: 16, flexible days

Number of externs to be accepted for 2021-22: 2

Minimum level of readiness: Prior neuropsychological testing is preferred

Familiarity with some of the following tests preferred:

CVLT-II, CVLT-C, D-KEFS, DRS-II, WISC-V, WIAT-III, WAIS-IV

Intervention and Assessment: Externs are trained in administering comprehensive neuropsychological evaluations for outpatients ages 5 and older. Externs will learn how to conduct neurobehavioral status exams and give concise, effective feedback to patients and parents.

Expected number of full assessment batteries completed during externship: 35+

Estimate # of integrated assessment reports per year: 35+

Supervision: One hour per week of individual supervision, group supervision, and didactics.

Context of didactics: Grand rounds, department didactics, journal club

To apply, please submit CV, transcript, and de-identified test report to Carole.Filangieri@NYULangone.org
